

POWER BOX 61

POWERED SMALL SIZE SPEAKER BOXES FOR INSTALLATIONS

Power Box 61 is a two-way loudspeaker pair consisting of one active unit with a built-in high-efficiency Class D stereo amplifier (2 × 30 W) and one passive loudspeaker connected via Phoenix connector. Each speaker features a 6" woofer and a 1" tweeter for full-range, high-quality audio reproduction. Supplied with U-brackets for wall or ceiling mounting, this system is ideal for professional audio installations in classrooms, conference rooms, and public spaces.
